Your registration number is:

100.000003

The part of your prequalification freely accessible for the general public gives information on name, address, performance areas and registration number of the construction company.

The password protected part in addition contains the proof of suitability submitted in accordance with § 6a VOB/A resp. § 6a EU VOB/A to the prequalifying bodies for the assessment of the prequalified company.

The access to the detailed view of your registration is reserved for your company as well as your prequalifying body PQ-Bau GmbH only. You are free to pass on your access authorisation to trusted organisations. The password can be modified at any time.

Contracting bodies of public clients as well as engineer offices, insofar as they are concerned with the qualifying examination for public clients, receive on request a separate password from the Association for the prequalification of construction clients.

The validity of the prequalification results from the current internet extract of the official list of prequalified companies. You will be notified by us for the updating of the documents deposited in your prequalification.

Kind regards

PQ-Bau GmbH
